**DELTA RESOURCES, INC., RESEARCH, ANALYTICS, AND TECHNOLOGY (RA&T),
CONTRACTS DIRECTORATES APPRAISED AT CMMI LEVEL 3**

Alexandria, VA, 8/6/2018: DELTA Resources, Inc. (DELTA), Research, Analytics, and Technology (RA&T) and Contracts Directorates today announced that they have been appraised at level 3 of the CMMI Institute's Capability Maturity Model Integration (CMMI)®. The appraisal was performed by Broadsword Solutions Corporation.

The successful appraisal is the culmination of DELTA's implementation of its *DELTAForce* process improvement program; combining Agile Scrum software development with Systems/Cyber Engineering under CMMI Level 3 process and practice discipline. DELTA's Director of RA&T, Michael Miller, explained, "*DELTAForce* enabled us to exponentially transform our already great technical and business culture to ensure even better results for our customers." These achievements include foundational improvements to DELTA's DevOps (software development and operation) evolution, enabling our cloud cyber teams to innovate rapidly at scale. Miller continued, "DELTA is now in a capable position to take on and excel on much larger technical efforts that deliver exceptional value to our customers."

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 3 indicates the organization is performing at a "defined" level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization's set of standard processes, which is the basis for maturity level 3, is established and improved over time.

CMMI Level 3 maturity is one element of DELTA's continued emphasis on performance excellence, and supports our delivery of technical services in the critical mission areas of C5I and Warfare Systems Engineering and Integration; Shipbuilding and Fleet Support; Critical Infrastructure and Force Protection; and Cybersecurity and Cloud Computing.

About: DELTA Resources, Inc. is a woman-owned business, established in 2000 to provide support services to the Federal government and private sector. With 300+ employees and annual revenues exceeding \$50 million, the company maintains a steadfast focus and sustained growth in national security mission areas. DELTA achieves its corporate objectives through a partnership-oriented commitment to excellent customer service and employee development.
